

Become a Dr Hologram Student Ambassador

Are you interested in entrepreneurship and innovation? Would you like to become involved in modernizing education and lifestyle across campus?

Dr Hologram creates AI powered digital people and experiences designed to make technology more engaging, accessible, and impactful. We are currently recruiting student ambassadors to help us introduce our **visually based, interactive AI** tools to university and college departments across academics and teaching, athletics, admissions, student organizations, and more.

We are passionate about mentoring the next generation of innovators. This is an opportunity for you to work alongside an emerging tech company, gain hands-on experience, build your network, share your ideas, and help shape the program! We look forward to working with you.

Join Us!

As a Student Ambassador You Will:

- Identify faculty, department leaders, and student organizations that may be a good fit for Dr Hologram
- Reach out with provided resources and introduce Dr Hologram to potential contacts
- Submit interested contacts through our 'Leads Form'
- Share feedback and ideas to support the program

What We Provide:

- **Student Training** on our technology so you can confidently present to potential contacts
- **Outreach Resources** such as a draft email and demo of our simulation case library to make reaching out simple and straightforward
- **Paid Opportunity**- earn \$20/hr while gaining hands on experience with a tech start-up
- **Direct Support** from the Dr Hologram team anytime
- **Opportunities** to contribute your ideas and help shape the program

Who We Are Looking For:

Seeking Undergraduate or Graduate Students

- Interested in emerging technology, AI, entrepreneurship, innovation
- Well- connected within their department and campus community or wish to build upon it
- Self motivated, enthusiastic, academic and eager to grow beyond the classroom
- Excited about Dr Hologram and working with a start-up

What You Will Gain:

- Opportunities to strengthen your professional network on campus and in the real-world
- Exposure to business development and entrepreneurship
- Develop leadership and communication skills
- Mentorship and opportunities for future employment

More Ways to Get Involved:

- Assist Dr Hologram at conferences and events
- Present Dr Hologram to student clubs and organizations
- Help recruit student ambassadors on campus
- Share feedback and become involved in shaping the program

How to Apply:

Fall Semester Opportunity: 2-4 hours per week | \$20/hr

This opportunity is open to undergraduate and graduate students.

Please send your resume to abby@drhologram.com along with an introduction and description of

1. Why you are interested in working with Dr Hologram
2. What you believe you could contribute
3. Your interests and involvement on campus
4. Anything else you would like to add!

For Questions, please reach out to abby@drhologram.com
